Mariela Gualdi
FRONT-END DEVELOPER

Work Experience

Freelance Developer   📅 11/2020 - Present

Working alongside a back-end developer. We bring solutions to SMEs. Creating smart, maintainable, and simple apps to help grow their business, following best practices and tools appropriate to their needs. Working with different technologies, such as Angular, AngularJS, SharePoint Online, Power Apps to name a few.

Assistant Manager / Developer   📅 11/2017 – 11/2020
EY Argentina

Working in a multidisciplinary team from all over the world and a variety of external and internal clients, I develop new features and maintenance applications in AngularJS and Angular based on SharePoint Online and 2013 as a backend. In my last year I was promoted to assistant manager and that role came with the responsibility for the SharePoint team in Argentina.

SharePoint Developer   📅 11/2016 – 11/2017
Iceberg Solutions

Working in a team of 4 developers, we oversaw one of iceberg's biggest clients, IDB. Development of new SharePoint user-friendly interfaces with JavaScript AngularJS, Bootstrap, jQuery, HTML, CSS.

SharePoint Developer   📅 05/2016 – 11/2016
Atos Argentina

Working for one of Atos client Total Austral. I was in the maintenance area. I had directly contact with clients, trying to understand their needs and fulfil them based on SharePoint 2010 environment using JavaScript

SharePoint Developer   📅 06/2013– 05/2015
BASSC Chevron Argentina

Working in a multidisciplinary team from all over the world and a variety of internal clients we bring SharePoint out of the box solutions and customs with JavaScript and Bootstrap.

SharePoint Developer   📅 11/2010 – 05/2013
Baufest

Working for many clients I gave support and created new SharePoint 2007 / 2010 solutions out of the box and customs
